Selected Works

REQUIREMENTS AND PROMPTS

Submit five works that demonstrate:

- 2-D/3-D/drawing skills (depending on type of portfolio submitted)
- Synthesis of materials, processes, and ideas

For each work, state the following in writing:

- Idea(s) visually evident (100 characters maximum, including spaces)
- Materials used (100 characters maximum, including spaces)
- Processes used (100 characters maximum, including spaces)

For specific details on how works or images of works are submitted for each portfolio type, see page 35 of the *AP Art and Design Course and Exam Description*, Effective Fall 2019.

Scoring Rubric for Selected Works

General Scoring Note

When applying the rubric, the response does not need to meet all three criteria for each score point. You should award the score according to the preponderance of evidence; however, if the written evidence is completely unrelated to the work, the maximum possible score is 2.

Scoring Criteria				
A. 2D/3D/Drawing Art and Design Skills: 2D				
B. Materials, Processes, and Ideas: 20				
C. Writing: 3C				
The body of work demonstrates:				
5				
A. Visual evidence of advanced 2D/3D/Drawing skills.				
B. Visual relationships among materials, processes, and ideas are clearly evident and demonstrate synthesis.				
C. Written evidence identifies materials, processes, and ideas.				
4				
A. Visual evidence of good 2D/3D/Drawing skills.				
B. Visual relationships among materials, processes, and ideas are clearly evident.				
C. Written evidence identifies materials, processes, and ideas.				
3				
A. Visual evidence of moderate 2D/3D/Drawing skills.				
B. Visual relationships among materials, processes, and ideas are evident but may be unclear or inconsistently demonstrated.				
C. Written evidence identifies materials, processes, and ideas.				
2				
A. Visual evidence of rudimentary 2D/3D/Drawing skills.				
B. Little to no evidence of visual relationships among materials, processes, or ideas.				
C. Written evidence may identify materials, processes, and ideas.				
1				
A Little or no visual evidence of 2D/3D/Drawing skills				

A. Little or no visual evidence of 2D/3D/Drawing skills.

B. Little to no evidence of visual relationships among materials, processes, or ideas.

C. Written evidence may identify materials, processes, and ideas.

AP Art and Design Selected Works Rubric Terminology (in order of appearance in rubric)

Written Evidence: the written components that accompany the student's works of art and design

Visual Evidence: the visual components that make up the student's works of art and design

Skills: abilities

Rudimentary: emerging or undeveloped

Moderate: adequate

Good: proficient

Advanced: highly developed

2D skills: use of two dimensional elements and principles - point, line, shape, plane, layer, form, space, texture, color, value, opacity, transparency, time; unity, variety, rhythm, movement, proportion, scale, balance, emphasis, contrast, repetition, figure/ground relationship, connection, juxtaposition, hierarchy

3D skills: use of three dimensional elements and principles - point, line, shape, plane, layer, form, space, texture, color, value, opacity, transparency, time; unity, variety, rhythm, movement, proportion, scale, balance, emphasis, contrast, repetition, figure/ground relationship, connection, juxtaposition, hierarchy

Drawing skills: use of mark-making, line, surface, space, light and shade, composition

Materials: physical substances used to make works of art and design

Processes: physical AND conceptual activities involved with making works of art and design

Ideas: concepts used to make works of art and design (that can be evident visually or in writing)

Relationships: connections

Unclear: not easily observable, discernable, or legible

Inconsistent: not demonstrated in the same way or to the same degree across works of art and design

Identify: Indicate or provide information

Synthesis: coalescence/integration of materials, processes, AND ideas

Sustained Investigation

REQUIREMENTS AND PROMPTS

Submit 15 images that demonstrate:

- Sustained investigation through practice, experimentation, and revision
- Sustained investigation of materials, processes, and ideas
- Synthesis of materials, processes, and ideas
- 2-D/3-D/drawing skills (depending on type of portfolio submitted)

State the following in writing:

- Identify the inquiry or question(s) that guided your sustained investigation
- Describe how your sustained investigation shows evidence of practice, experimentation, and revision guided by your inquiry or question(s) (1200 characters maximum, including spaces, for response to both prompts)

Questions that guide the sustained investigation are typically formulated at the beginning of portfolio development. Students should formulate their inquiry or question(s) based on their own experiences and ideas. These guiding questions should be documented and further developed by students throughout the sustained investigation.

Identify the following for each image:

- Materials used (100 characters maximum, including spaces)
- Processes used (100 characters maximum, including spaces)
- Size (height × width × depth, in inches)

For images that document process or show detail, students should enter "N/A" for size (see Additional Information About the Sustained Investigation Section on the following page for more details). For digital and virtual work, students should enter the size of the intended visual display.

Scoring Rubric for Sustained Investigation

General Scoring Note

When applying the rubric, the score for each row should be considered independently from the other rows. Student work may receive different scores for each row.

When applying the rubric for each individual row, you should award the score for that row based solely upon the criteria indicated for that row, according to the preponderance of evidence.

Row	Scoring Criteria			
Α	Inquiry			
2.A 3.A	1	2	3	
	Written evidence identifies an inquiry but visual evidence does not relate to that inquiry.	Written evidence identifies an inquiry that relates to the sustained investigation.	Written evidence identifies an inquiry that guides the sustained investigation.	
	OR	AND	AND	
	Written evidence does not identify an inquiry.	Visual evidence demonstrates the sustained investigation.	Visual evidence demonstrates the sustained investigation.	
В	Practice, Experimentation, and Revision			
2.B 3.B	1	2	3	
	Visual evidence of practice, experimentation, OR revision; however, visual evidence does not relate to a sustained investigation.	Visual evidence of practice, experimentation, OR revision relates to the sustained investigation. AND	Visual evidence of practice, experimentation, AND revision demonstrates development of the sustained investigation. AND	
		Written evidence relates to the visual evidence of practice, experimentation, OR revision.	Written evidence describes how the sustained investigation shows evidence of practice, experimentation, OR revision.	
С	Materials, Processes, and Ideas			
2.C	1	2	3	
	Little to no evidence of visual relationships among materials, processes, OR ideas.	Visual relationships among materials, processes, OR ideas are evident .	Visual relationships among materials processes, AND ideas are clearly evident and demonstrate synthesis.	
D	2D/3D/Drawing Art and Design			
2.D	1	2	3	
	Visual evidence of rudimentary and moderate 2D/3D/Drawing skills.	Visual evidence of moderate and good 2D/3D/Drawing skills.	Visual evidence of good and advanced 2D/3D/Drawing skills.	

AP Art and Design Sustained Investigation Rubric Terminology (in order of appearance in rubric)

Sustained Investigation: an inquiry-based and in-depth study of materials, processes, and ideas over time Inquiry: the process of asking questions in order to seek, to search, and to discover Written Evidence: the written components that accompany the student's works of art and design Visual Evidence: the visual components that make up the student's works of art and design Identify: Indicate or provide information Relates: having relationships and/or connections between Demonstrate: to make evident Indicate: to show, suggest, point out Guides: the Inquiry leads the process of making works of art and design Practice: the repeated use of materials, processes, and/or ideas Experimentation: testing materials, processes, and/or ideas Revision: making a purposeful change, correction, or improvement **Development:** the furthering or advancing of an inquiry in a sustained investigation (through in-depth exploration of materials, processes, and ideas) Materials: physical substances used to make works of art and design Processes: physical AND conceptual activities involved with making works of art and design Ideas: concepts used to make works of art and design (that can be evident visually or in writing) Relationships: connections Synthesis: coalescence/integration of materials, processes, AND ideas Skills: abilities Rudimentary: emerging or undeveloped Moderate: adequate Good: proficient Advanced: highly developed

2D skills: use of two dimensional elements and principles - point, line, shape, plane, layer, form, space, texture, color, value, opacity, transparency, time; unity, variety, rhythm, movement, proportion, scale, balance, emphasis, contrast, repetition, figure/ground relationship, connection, juxtaposition, hierarchy

3D skills: use of three dimensional elements and principles - point, line, shape, plane, layer, form, space, texture, color, value, opacity, transparency, time; unity, variety, rhythm, movement, proportion, scale, balance, emphasis, contrast, repetition, figure/ground relationship, connection, juxtaposition, hierarchy

Drawing skills: use of mark-making, line, surface, space, light and shade, composition
